

Syrah is the only international red variety that we chose to produce as it has a niche of very affectionate customers. It does not have an overly rude character but it is deep to the nose, with hints of berries and pepper and with balsamic notes. It is round in the mouth, where the fruits appear again, and has a good drinkability.

It is suitable with both red and white meat, with carpaccio, game, and mushrooms.

Syrah DOC Sicilia "Syrah"

GRAPE VARIETIES

Syrah

WINEMAKING

Maceration on the skins in temperature-controlled steel vats for 10 days.

AGEING

In stainless steel tanks and in bottles.
